GOLD SCRIPTS

The Wellness Program (SIMERP)

"Deals aren't lost over what you don't say. They're lost over what you do say. Keep it simple, say as little as possible and stick to the script. You don't need to know more than you know right now just to get started. You already know more than every employer in America right now. "

01 - Opening Question

"When was the last time you had a conversation about benefits for your employees that didn't cost you or them more time, money, and resources?"

02 - Introducing SIMERP

"There is an IRS and ACA-compliant program designed to help businesses reduce the strain on the healthcare system. If you're willing to participate, the IRS will allow you to save around $630 per employee annually in payroll tax relief, and it could reduce your workers' comp costs by 30% or more. You can keep your current broker and policy in place. I'm not here to replace any of the professionals you've spent years developing relationships with. Everything we do just adds to what you already have, at no net cost to you or your employees. So, it's not a matter of cost, just a matter of enrolling."

03 - Scheduling the Meeting (TBC)

"That's great that you'd like to think about the purchase, however I'd like to remind you that this price is only for the weekend as the sale ends on Sunday. **(Just assume they are going to schedule)** (TBC)

Afternoon? Great! I have Wednesday and Friday afternoon available. Which day works best for you? **(Always give them two choices and let them pick)**

Wednesday? Perfect. I will put you down for Wednesday at _____. Whats your email? I'll go ahead and send you an invite to the call."

04 - Pre-Call Questions

"Before I go, could you answer a few quick questions so I know I won't be wasting your time?

1. How many W-2 employees do you have? (20 for example)
2. What payroll system are you using, or do you outsource payroll?
3. Do you currently offer major medical or supplemental benefits through someone like Colonial or Aflac?"

05 - Closing Statement

"Based on the number of employees you have; it definitely would not be a waste of your time so. In payroll tax relief alone, you're looking at almost $13,000 so, I will see you on the call next week and it will take about 30 minutes but you'll see within the first 5 that this is a good fit for your business. See you then!"

3 KEY DIFFERENCES

The Wellness Program (SIMERP)

1	When it comes to benefits, traditionally either the employees pay for it or the company pays for it. Right? **With us, there is no "net cost" to you or your employees.**
2	Currently, your employees have to qualify for benefits with a clean bill of health, right? **With us there are no health questions. Everything is guaranteed issue for your employees and every member of their family up to age 26. So, now cost is not the reason they can't participate, and health isn't the reason they cant participate. We remove both of those roadblocks with our program.**
3	Does any of the current benefits you have in place now create net positive revenue for your business? **On your first payroll run after you implement the program, you'll realize net positive revenue as a result of the program. It's not money you have to wait for. It is money that you are overspending right now and YOU DO NOT HAVE TO! If I could show you how you were overpaying that much, wouldn't you want me to tell you how?**

Them: Well, of course.

You: I could tell you were smart just by looking at you when you walked in!

Let's schedule a 20-30 minute call with my partner. He is THE subject matter expert and there is nobody better that could go over the details with you. If it's not for you, you'll know in the first five minutes and it still won't cost you anything.
